PROFILE SUMMARY

D3 Informatics Engineering student with an interest in Frontend Development and experience developing web projects using HTML, CSS, JavaScript, and Next.js. Familiar with responsive web design, component-based development, UI/UX, and version control using Git and GitHub. Experienced in developing websites from interface design to frontend implementation and eager to further develop technical skills through a Frontend Developer internship.

EXPERIENCE PROJECTS

LOGSHOP - Marketplace Design Logo | HTML, CSS, JavaScript, Next.js

- Developed a logo marketplace web application using Next.js.
- Built a modern and fully responsive interface for various devices.
- Implemented structured and reusable frontend components to improve development efficiency and consistency.

MAGASA - Internship Platform UI/UX & Web Development | HTML, CSS, JavaScript

- Developed a student internship information platform using HTML, CSS, and JavaScript.
- Designed a clean, responsive, and visually appealing user interface.
- Optimized user flows and interactions to simplify the process of finding internship information.

Student Academic System | TypeScript, JavaScript, HTML, CSS

- Developed a web-based academic information system using TypeScript.
- Built a simple, intuitive, and user-friendly interface for system users.
